

Global Polychem LLC DbA OMNI FUEL is a leading provider of comprehensive fuel distribution solutions in the Gulf Coast region. With our strategic location and extensive infrastructure, we are well-equipped to meet the diverse fuel needs of businesses and industries across Texas and beyond.

### Services:

- **Fuel Distribution:** We specialize in the distribution of a wide range of fuel products to cater to various industries and applications. Our efficient distribution network ensures timely delivery and reliable service, meeting the demands of our customers.

### Fuel Products:

- **Gasoline:** Our **Gasoline** products are formulated to deliver optimal performance for automotive, industrial, and commercial applications. We offer various grades of gasoline to meet the specific requirements of our customers.

- **Diesel:** We supply high-quality diesel fuel suitable for diesel-powered vehicles, machinery, and equipment. Our **Diesel** products meet industry standards for cleanliness, efficiency, and performance.

- **Naphtha:** **Naphtha** is a versatile fuel and solvent used in various industrial processes. We provide naphtha products tailored to the needs of refineries, chemical plants, and other manufacturing facilities.

- **Ethanol-Free Fuel:** For customers requiring **Ethanol-Free** fuel options, we offer specially formulated gasoline products that provide clean and reliable performance without ethanol content.

- **High Octane / Racing Fuel:** Our **High Octane Fuel / Racing Fuel** is designed to meet the demands of high-performance engines, offering enhanced power and efficiency for automotive enthusiasts and racing applications.

- **Biofuel:** As part of our commitment to sustainability, we offer **Biofuel** options made from renewable sources, providing environmentally friendly alternatives to traditional fossil fuels.

- **Avgas:** We supply aviation gasoline (**Avgas**) suitable for piston-engine aircraft, meeting stringent quality and safety standards for aviation use.

- **Jet Fuel:** Our **Jet fuel** products meet the strict specifications required for use in aviation, ensuring safe and efficient operations for commercial and private aircraft.

### Storage and Delivery:

- **Storage Capability:** Omni Fuel has access to state-of-the-art storage facilities capable of storing large volumes of fuel products to meet the needs of our customers.

- **Delivery Options:** We offer flexible delivery options to accommodate various transportation requirements, including truck tanks, rail cars, and barges. Our experienced logistics team ensures efficient and reliable delivery of fuel products to your location.
