

FUELS & LUBRICANTS FOR AVIATION INDUSTRY

Global Polychem dba OMNI FUEL is a leading provider in the distribution and supply of premium Aviation Fuels and Sustainable Aviation Fuel (SAF). With a steadfast commitment to quality, safety, and sustainability, we cater to a diverse clientele including Fixed Base Operators (FBOs), Maintenance, Repair, and Overhaul (MRO) facilities, and international markets.

Lubricants:

Turbine oils, Hydraulic fluids, Multi-Purpose Greases, Performance based Lubricants & Fuels. We Offer a comprehensive range of Lubricants for Helicopters, business Jets and Aircrafts.

Turbines & Piston Engine Oils

Oils and Lubes for Power Plants, APU, IDG Starter, Propeller and accessories.

Hydraulic Fluids

Shock Strut Fluids for Landing Gear & Helicopter System Fluids.

Greases

Multi-Purpose & specific grease for standard or extreme applications.

Speciality Lubricants & Additives

Instruments, Airframe Lubrication, De-Icing & Other Application

Our products are qualified and approved by engine and aircraft manufacturers, OEMs and authorities. All our products strictly meet the requirements of international certifications. Products from: Chevron, NYCO, Citgo, Calumet, Phillips 66, DOW, BASF, Exxon Mobil.

FUELS : Discover Excellence in Aviation Fuel Solutions

1. Jet Fuel (Jet A/A1):

- Conforms to ASTM D1655 and DEF STAN 91-91 standards.
- Ensures optimal performance and reliability for all aircraft types.

2. Avgas (100LL):

- Specifically formulated for piston-engine aircraft.
- Meets stringent quality standards for aviation safety.

3. Sustainable Aviation Fuel (SAF):

- Renewable alternative reducing carbon footprint.
- Compliant with ASTM D7566 and European Union RED II standards.
- Supports environmental sustainability without compromising performance.

Our Services:

- **Customized Supply Solutions:**
 - Tailored delivery schedules to meet operational needs.
 - Reliable logistics ensuring on-time deliveries worldwide.
- **Flexible Packaging Options:**
 - Drums: Ideal for smaller volumes and easy handling.
 - Iso-Tanks: Efficient for bulk deliveries, maximizing efficiency.
- **Global Export Expertise:**
 - Proficient in international logistics and customs clearance.
 - Seamless supply chain management for global reach.

How We Serve:

1. **Local FBOs:**
 - Personalized service to support ground operations.
 - Timely deliveries ensuring uninterrupted flight services.
2. **MRO Facilities:**
 - Strategic supply partnerships for maintenance needs.
 - Flexible solutions to meet demanding schedules.
3. **International Markets:**
 - Dedicated export services with compliance assurance.
 - Consistent supply chain reliability for global customers.
